

V-GROOVE STEEL WHEELS

CAPACITY TO 2500 LBS.

For use on either a track (inverted angle iron), a flat surface, or both, this wheel is exactly machined in the center of the tread with a relief groove at the base of the "V" directing the load to each face of the groove.

Outstanding features:

- Use of track can eliminate floor damage.
- Controlled directional travel.
- Durothane lining in V-groove for increased wheel life and/or noise reduction available on request.
